“This Month In History”

MAY

1907: John Wayne is born on May 26. An American patriot and cowboy legend, Wayne spent three decades as one of the top box-office draws, appearing in over 170 films.

1919: Tired of burnt toast, Charles Strite comes up with the idea for the pop-up toaster. Heating both sides of a slice of bread at once and ejecting it when it's done, the toaster is now the most common kitchen appliance.

1927: Charles “Lucky Lindy” Lindbergh is the first pilot to fly a solo nonstop flight from New York City

to Paris. Ushering in a new era of air transportation, the 3,600-mile flight took 33 1/2 hours.

1940: The first McDonald's opens in California. As of 2021, there are more than 40,000 locations worldwide.

1954: In the *Brown v. Board of Education* case, the Supreme Court rules that racial segregation in public schools is unconstitutional. A cornerstone of the civil rights movement, this decision set the precedent for ending “separate but equal” laws.

1978: Users on ARPANET, an early version of today's internet, are annoyed when they receive an electronic sales ad—the first spam email—from Digital Equipment Corporation.

1980: The video game *Pac-Man* premieres in Japan. Having sold nearly 48 million copies of the game, the franchise has grossed over \$14 billion.

2004: After 10 seasons, the 236th and final episode of the sitcom “*Friends*” airs on NBC.
