April 2024

Welcome to April

The world is remembering its roots this month as spring starts turning everything green! No matter how fickle the weather may be, we always anticipate the new beginnings this freshest of months brings. Of course, April is full of other celebrations, like April Fools' Day (1st), Earth Day (22nd) and even National Velociraptor Awareness Day (18th). However you choose to have fun this month, we hope you enjoy the brightening days!

Q: Ed planted four rows of flowers. The daffodils are right behind the tulips, but before the dahlias. The zinnias aren't in the first or last rows, and the flowers in the first row don't begin with the letter D. What's the order of the flowers?
