30-Second Mysteries

WHAT

The Case

Megan is locked in a windowless room with several dozen other people. She faces a battery of tests for nearly three hours. Megan is under intense pressure and every answer will be closely scrutinized. Her future depends on her ability to answer correctly.

The Mystery

What is Megan doing, and where is she?

The Clue

Megan knows that her future will be affected by the test.

Megan had to show a picture ID.

Megan has been coming to this place daily for the last three years.

Megan is only 17 years old.

Megan's friends are in the room, taking the same test.

Megan has several numbers #2 pencils with her - and is taking a standardized test.

March's answer is the 30 second Mysteries is - Martin Luther King Jr. was assassinated in Memphis in 1968.

Congratulations to our March winners - Martha C114, Kelly C117.
