30-Second Mysteries

WHAT

Case #2

The Case

A huge storm gathers over the desert one January, threatening everything in its path. Thousands die and many more are injured. The storm passes, but the sky remains darkened by big black clouds.

The Mystery

What two countries were most affected by the storm and what year did it hit?

The Clue

The storm took place in the 20th century.

The countries have a hot climate and are rich in natural resources.

The storm did not bring rain or wind.

The United States government helped create the storm.

The countries are in the Middle East.

The storm took place in the 1990s.

June's answer to the 30-second mysteries is - Michelangelo painted the ceiling of the Sistine Chapel.

Congratulations to our June 30-Second Mysteries winner - Martha Bleyl.
