Age Doesn't Matter

"Age is something that doesn't matter, unless you are a cheese." —Billie Burke

Acorns Aplenty

With their familiar brown caps, acorns are the falling fruit of the oak tree. During late summer and early fall, the trees drop the nuts, and squirrels are often seen happily hoarding them. When there's a bumper crop of acorns, it's known as a mast year. Chipmunks, birds, deer and other wildlife that depend on the nutritious nuts can't eat all of them, leaving the excess acorns to grow into new oak trees.
